DETAILED ACTION

1. Claims 1 – 7 are presented for examination.

Response to Arguments

2. Applicant's arguments concerning Double Patenting Rejections, filed 07/22/2004, have been fully considered but they are not persuasive.
3. As per remarks, Applicants' argued that neither of Hayashi and Nakano disclose or suggest a map database site equipped with a database which is configured to perform the functions performed by Applicant's claimed retrieval database.
4. As to the above point, Hayashi [US Patent No 6,477,526] discloses a map server comprising a map database [col 12, lines 3-5] and the map server performs the functions of retrieving [i.e. obtain and produce a display] [col 12, lines 14-24]. Also, Nakano [US Patent No 6,532,475] discloses a map database site [i.e. second server] equipped with a database [i.e. storage unit for storing the map data] [col 11, lines 16-20] and performs the functions of retrieving [i.e. obtain the map data] [col 11, lines 35-53].

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-7 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of US Patent No. 6,477,526 [hereinafter '526 patent], and claims 6-9 of US Patent No. 6,532,475 [hereinafter '475 patent]. Although the conflicting claims are not identical, they are not patentably distinct from each other because of the following reasons:

As per claim 1, the instant applicant claims:

A map-information providing system through a computer network for transmitting map image data ...,

wherein said map-information providing site has a map-information providing server ...,

wherein said map database site has a map-information database storing

Art Unit: 2154

The claims of '526 and '475 patents do not specifically state a map database site as described in the claim 1 of instant application, however it would have been obvious to a person skill in the art to recognize that the set of claims are similar because main server and router calculation server of '526 patent and first server and second server of '475 patent perform the functions of the map database site of the instant application which is providing map data to a terminal device through a network.

As per independent claims 2-7, they are also directed to the same subject matter recited in claim 1 above. Accordingly, they are provisionally rejected under the judicially created doctrine of obviousness-type double patenting.

7. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
